#### MODERATION.

The discussion of dancing in the Chronicle, brings up a difficult question. Both religion and dancing are as old as human history.

And naturally so. Because it is natural for every one to have some kind of religion, and to want some kind of amusements.

Both are laws of our nature. And Nature's laws are all God's laws, made by our Creator. It is for us to make the wisest and best use of them that we can. And to so live that life may be useful and enjoyable, and at the same time take us onward and upward. To get the best results should avoid extreme views on all subjects. Should be "temperate in all things."

The subject under consideration has been one of the most difficult for moral and religious teachers. Hence it should be considered very carefully. Almost any kind of amusement may be overdone. Religion itself may go to extremes. There are many kinds of games. Generally they are harmless. Some are instructive. Many could be made a form of gambling. They need not be.

It is not true that nearly all cases of sexual immorality and of woman's downfall have been caused by indulgence in dancing. In some cases an improper use of this amusement and bad associations, have contributed to this evil result. And so has the improper use of games and sports resulted in gambling. Hence it is best for instructors and older persons to look after amusements. Not to suppress them, but to keep them in safe and wholesome channels. We can dam up a stream, but it will overflow. We guide it and it will be pleasant and useful.

It is the very intimate nature of dancing that makes it dangerous. Some forms of it are too intimate to be used at all. Such dances as simply consist in holding hands while moving to music, may be used in moderation, in suitable surroundings. But seldom in public places. Should be mainly confined to friends of good character.

In some places, very moral and religious people do some dancing, and alternate it with other amusements. But the dancing is of the harmless kind, and, only lasts an hour or two.

I have seen that done by people of the highest character. People who were refined, intellectual and moral; who on Sunday assembled in their hotel and earnestly sang the most religious hymns. But the world has not reached that standard, yet, and thoughtful care is necessary.

## BANKERS URGED TO GO-OPERATE WITH FARMERS

SOUL MATERIAL HAS ENTERED THE BANK VAULTS OF THE NATION.

The Bank a Financial Power House to the Community.

By Peter Radford.

One of the greatest opportunities in the business life of the nation lies in practical co-operation of the country banks with the farmer in building agriculture and the adventure is laden with greater possibilities than any forward movement now before the American public.

A few bankers have loaned money to farmers at a low rate of interest, and oftentimes without compensation, to buy blooded livestock, build silos, fertilize the land, secure better seed, hold their products for a better market price, etc. The banker in contributing toward improving the grade of livestock; the quality of the seed and the fertility of the soil, plants in the agricultural life of the community a fountain of profit, that, like Tennyson's brook, runs on and on forever. Community Progress a Bank Asset.

The time was when money loaned on such a basis would severely test the sanity of the banker; such transactions would pain the directors like a blow in the face. A cashier who would dare to cast bread upon waters that did not return buttered side up in time for annual dividends would have to give way to a more capable man. This does not necessarily mean that the bankers are getting any better or that the milk of human kindness is being imbibed more freely by our financiers. It indicates that the bankers are getting wiser, becoming more able financiers and the banking industry more competent. The vision of the builder is crowding out the spirit of the pawnbroker. A light has been turned on a new world of investment and no usurer ever received as large returns on the investment as these progressive bankers, who made loans to uplift industry. The bankers have always been liberal city builders, but they are now building agriculture.

A Dollar With a Soul.

It is refreshing in this strenuous commercial life to find so many dollars with souls. When a dollar is approached to perform a task that does not directly yield the highest rate of interest, we usually hear the rustle of the eagle's wings as it soars upward; when a dollar is requested to return at the option of the borrower, it usually appeals to the Goddess of Liberty for its contractual rights; when a dollar is asked to expand in volume to suit the requirements of industry, it usually talks solemnly of its redeemer, but soul material has entered into the vaults of our banks and rate, time and volume have a new basis of reckoning in so far as the ability of some of the bankers permit them to co-operate in promoting the business of farming.

God Almighty's Noblemen.

These bankers are God Almighty's noblemen. Heaven lent earth the spirit of these men and the angels will help them roll in place the cornerstones of empires. They are not philanthropists; they are wise bankers. The spirit of the builder has given them a new vision, and wisdom has visited upon them business foresight.

The cackle of the hen, the low of kine and the rustle of growing crops echo in every bank vault in the nation and the shrewd banker knows that he can more effectively increase his deposits by putting blue blood in the veins of livestock; quality in the yield of the soil and value into agricultural products, than by business handshakes, overdrafts and gaudy calendars.

Taking the community into partnership with the bank, opening up a ledger account with progress, making thrift and enterprise stockholders and the prosperity of the country an asset to the bank, put behind it stability far more desirable than a letterhead bearing the names of all the distinguished citizens of the community. The bank is the financial power house of the community and blessed is the locality that has an up-to-date banker.

The success of the nation is in the hands of the farmer.

Work for the best and the best will rise up and reward you.

Tenant farming is just one thing after another without a pay day.

Can that grouch and wear a smile.

Gasoline for sale at the Chronicle office for 20 cents a gallon.

If you have a watch or a piece of jewelry that needs fixing, bring it to Bishop at the Chronicle office and he will send it to J. H. Wilson, who will fix it right at a right price and return it. Then you can pay when it is returned.

S. L. Selby, who was a resident of Crossville several years ago, but now a resident of Algood, lost his house by fire recently. He carried no insurance and the loss was a heavy one to him as he is a man of small means. He is a carpenter by trade.

Worms that are supposed to be the Army Worm were found on millet on the farms of James Smith and S. J. Horn just north of town. Mr. Smith discovered them Sunday evening and at once ran a furrow around the field to prevent the spread of the worms. Mr. Horn began cutting his millet Monday and he also plowed the usual trench around the field and it is probable his loss will be light.

A bouncing baby boy was born to Mr. and Mrs. A. L. Garrison Monday afternoon. Dr. V. L. Lewis was in attendance. Abe says he intends to name the boy Emperor William, and from our point of view the name is an excellent one.

Noah Taylor was in from Isoline Monday. Mr. Taylor has been engaged in the general merchandise business at Isoline for some months as one of the firm of Elmore & Taylor. He has recently sold his interest to A. E. Tabor and the new firm will be known as Elmore & Tabor.

We learn that the army worms that attacked the millet of J. M. Roberts west of town are now reaching the stage when they develop wings and legs and are going away. Some progress has been made with ditching and burning but there are plenty on hand yet.

Mrs. Anna M. Fleming, Past Grand Matron O. E. S., came over from Monterey Sunday for a brief visit with Mrs. Eva C. Bishop and to enjoy the pleasant company of Mrs. Leta W. LeSueur, Grand Matron. A pleasant company of Eastern Star ladies met at the Bishop home Sunday afternoon and enjoyed the presence of the two distinguished visitors, whom they had all learned to love. Mrs. LeSueur left Monday for Cookeville, where she made her official visit to Cookeville Chapter that night. Mrs. Fleming returned to her home Monday also.

Preaching services in the Congregational church Sunday, morning and evening. A social will be held Friday, evening September 3, in the parlors, to which all are invited.

Registration at Burgess was 172 during the ten days the books were open. That would seem to indicate that practically every voter in the district has prepared to vote. In view of the heavy registration there is very likely to be a heavier vote at the next election than has been polled there for several years.

From a letter received from Miss C. Edna Lewis, Detroit, Michigan, we gleaned the following: "For the past year I have certainly enjoyed receiving the Chronicle as it was as good as a letter from dear friends. In fact it keeps me in touch with the country better than any thing else could have done, and I cannot do without it. I am sorry to have missed a few copies but I have been so busy that I scarcely have time to write letters. I am still assisting the pastor in the Woodward Avenue church and we have started a mission that is doing splendid work, yet I am much interested in the work at Ozono."

At a business meeting of the Congregational church held Sunday Rev. M. A. Martin was unanimously called to the pastorate of the church for the coming year. He and Mrs. Martin, who will arrive next month, were admitted to membership. A plan to interest every member of the church was adopted, which, if carried out, will mean that services will be held in the church every Sunday. Rev. Martin has directed his Christian efforts along lines that have proved of real interest to our people since he came among us and the fact that his wife will soon join him in his work, is particularly pleasing to our people. Rev. Martin conducts a Bible class each week that is composed of members of all the churches of the town and his earnest and fearless method of handling the subjects under consideration have aroused much wholesome interest in these Thursday evening meetings.

J. F. Brown and D. M. Wheeler were over from Crab Orchard Monday on business.

Fred Jocelyn was arrested Monday for being publicly drunk. He was in no condition to appear for trial when arrested and was placed in the city lockup until sobered. He was then taken before Recorder Rector, but evaded all attempts to learn where he got the whiskey. He was fined \$25 and costs.

Miss Nora Jones returned from Rockwood last week after a visit of a few days there with friends.

Mesdames Charles Julian and S. W. Potter went to Harriman yesterday for a visit of a few days with friends.

Typewriter—Model 2 Remington—in good working order. Cheap for cash, or would trade for bicycle if in good condition. M. B. Tarpenning, Crab Orchard, Tenn.

The 18-months old daughter of Prof. and Mrs. W. E. Wheeler, Pleasant Hill, died Sunday of spinal meningitis after an illness of several weeks, during which time all that medical skill could do was done in the hope of saving the life of the little one. The funeral services were conducted by Rev. M. A. Martin and the remains were interred at Pleasant Hill Monday. The deepest sympathy of a large circle of friends and acquaintances will go out from this and adjoining counties in their deep bereavement.

The city schools will open for work Monday. The county high school will open for the fall and winter term Monday, September 6.

T. A. McCartt was up from Litton yesterday. He reports the damage done to corn by the recent storm to be very great in many instances.

The Art Circle will meet in the Library rooms Friday of this week.

This is a splendid time to arrange for getting your wood for winter. Dry wood is worth far more than wet or green cords so far as heating goes. Every one knows that the dry weeks of fall rapidly season wood for making good hot fires during the winter months.

A. Hamby, the purchaser of the said land.

DON'T WORRY, but work.

Mrs. W. D. Hedgecoth was in from Meridian Monday.

Esq. C. H. Seils, of Mayland, was attending court this week.

Estrayed—Light bay horse, three years old small bell on on and foretop sheared, weight about 700 pounds. Notify J. F. McBride, Crossville. 8-25-21.

The crowd of hunters that were camping at the mouth of Yellow Creek, near Hebbertsburg, last week, returned Friday.

Mrs. J. E. Burnett will leave this week for Norton, Va., to visit her daughter, Mrs. H. E. Kelso, for a few weeks.

Prof. J. S. Cline went to Chattanooga Saturday with his daughter, Miss Marie, who is one of the party that is being sent free by the Chattanooga News to the Panama-Pacific exposition. The party left Chattanooga Monday.

Gus Geer, wife and two children arrived from Chattanooga Saturday morning and will visit with the family of E. G. Tollett and other relatives until Thursday when they will return to their home in Chattanooga.

Mrs. Tina Bice struck Isham Turner with a broom handle in the Reed & Burnett store Monday. Mr. Turner had her arrested and the fine and cost amounted to \$5.00. She was on the street in the custody of the marshal asking people to contribute to the payment of the fine and cost. She succeeded in raising the amount. Our understanding is that the trouble was due to an old grudge as the result of Isham Turner having been connected in some way—as officer or witness or some such way—in the arrest or prosecution of Mrs. Bice's son in a pistol case.

The Baptist Young People's Union will give a lawn party at the home of Mr. and Mrs. J. S. Reed Friday night. Every body invited. A good time seems assured.

Misses Fannie and Leah DeGolia went to Nashville yesterday to do some shopping. They will return Friday or Saturday.

Sunday the writer had the pleasure of visiting the home of Mr. and Mrs. J. A. Tulley, two and a half miles west of town. Mr. Tulley has done a large amount of work in developing his 85-acre farm. His crops generally look well and in some instances they are a distinct surprise considering the short time he has been engaged in his efforts to make old fields and meadow land produce crops. He has several acres of corn on meadow land, which he limed, that will produce a good crop in spite of the usually accepted belief that nothing can be grown on meadow land that will justify the effort. Their new home is a perfect gem of beauty and comfort and has not an equal in the county for convenience, neatness and careful arrangement so as to utilize every foot within the walls. The house has only four rooms and bath, but it is supplied with hot and cold water and every modern convenience. Would there were more such homes in the county. Mr. Tulley is much encouraged with the outcome of his efforts at farming this year.

Judge C. E. Snodgrass was holding court at Jamestown last week, but is at home this week taking a rest.
